No Down Payment Needed!

Written By: Harry Gribnitz

Judy was likely many "renters". She had a good job that helped her meet her financial needs. Her rent and other monthly obligations were paid on time. She worked hard, worked overtime, but just couldn't seem to save enough for a down payment on her first home. Whenever she got some money in her savings account, an emergency drained the account. She was about to give up on ever owning a home.

Fortunately, her friend Shirley referred her to me. We met and completed a pre-approval. Judy was correct; her only problem obtaining a mortgage was her lack of down payment. We showed her a special program, run by a non-profit organization that would provide a Gift for the down payment! The Gift program, with a little help from us, made her dream of a home of her own come true!

We specialize in helping homebuyers find the best loan program for their needs.
