Bank Vice President Seeks Help!

Written By: Dave Clouse

A Vice President of a local West Michigan bank was referred to me by a previous client who also works at the bank. He wanted to convert his mortgage to a fixed rate now that his adjustable interest rate was beginning to rise. The Vice President called because even with his employee discount, my rates and costs were lower than at his bank.

Do you know anyone working at a local bank? Do you know anyone thinking of using their local bank for their mortgage? Have them follow the example of this Bank Vice President and make sure they give me a call as well.
